

# **COLLEGE FACILITIES**

## **CAMPUS LOCATIONS AND FACILITIES**

The College will open in September in its own buildings on three individual campuses. The New Westminster Campus will be at the corner of Eighth Avenue and McBride Boulevard near Queen's Park, the Community Centre, and shopping facilities — the Surrey Campus will be near the New Simon Cunningham School at Green Timbers east of 140th Street at 92nd Avenue — the Richmond Campus will be just north of the Westminster Highway, across from the Richmond General hospital in Brighouse. In all, there will be approximately 64 classrooms, laboratories, and seminar rooms. Most popular university transfer courses will be given at all three campuses but several of the career courses can be given at only one campus because of their special laboratory facilities.

The settings for these campuses were chosen to provide a wholesome environment for study, recreation and your personal development.

## **CAMPUS CHOICE**

Normally you will attend the campus nearest your place of residence. In order to make maximum use of College facilities, some students may be required to attend a campus more distant from their home. It is anticipated that some students will find it more convenient to attend a campus other than the one in their immediate locality. Every effort will be made to satisfy each student, but availability of space at a given campus cannot be guaranteed.

## **LIBRARY**

Full library service is provided at each of the college campuses. As a student at any campus you may use the library at all three. Since it may sometimes be difficult for you to travel to another campus to obtain a particular item, an interloan service is provided. This means that you can ask for a book at Richmond, for example, and have it delivered from New Westminster.

Initially the library will possess about 20,000 books, plus pamphlets, maps, records, slides, etc. All materials except magazines are available at any campus. Magazines are not available on interloan between campuses, but a substantial collection is held at each. Other materials may be available on reserve or short-term loan only, at times of heavy demand.

Each library has adequate provision for study, including both carrels and tables. You will find tape-recorders, record-players and viewing equipment for audio-visual materials in certain areas of each library.

When you register at the College you will receive a library handbook which will explain to you in more detail how to use it to best advantage. Orientation programmes are also designed to help you. Please do not hesitate to ask any member of the library staff for assistance.
