

REDUCE

REUSE

RECYCLE

All kind of garbage is put in
ONE PLACE in Viet Nam.

In Canada,
garbage
is classified
into
different
categories.

The Save the World? Issue

⇒ The environment will be polluted if people don't throw garbage indiscriminately.

Environmental
pollution

→ climate
change

→ many
other
results

(endangered
animals)

To join hands to protect
the environment

Vietnamese people should be aware of
waste treatment as well as educate about
littering.

How to prepare your

RECYCLING

DO

Wash out any foods / crumbs / juices

Compost anything compostable.

Remove any non-recyclable or
multi-recyclable items.

Keep the tab/top of the can
attached to the cans

Flatten any boxes.

Use garbage to **create** art.

- Trash people.

- Shadow Portraits
